Thanks. I talked with Darrell Early (AG's office) on Friday and over the weekend confirmed a call with the RR attys for today at 1 pm your time. I'll call you before then to fill you in on status and where I expect our call with RRs to go today.

Sarah, Darrell:

In advance of the technical meeting next Weds., I believe it would help for legal counsel to have a call to address, in particular, the six issues that Gail and Craig raised to me earlier this week. See attached, including my truth-checking against the relevant authorities. I would like to discuss these issues with you **today**, if possible, in order to discuss with RR counsel on Monday or Tuesday before the technical meeting on Weds.

Please let me know if you have a half-hour today to discuss. I'm open today anytime outside of this hour. I'm also open anytime Monday morning (Pacific) in order to schedule an afternoon call with the RR attys.

Thanks.

Subje Wallace Yard and Spur Lines Site - Technical meeting
ct

Cliff and Sarah,

I understand that the railroad technical people have contacted Ed Moreen and Nick Zilka to try to set a meeting to discuss RAD drawing comments on Monday November 2 following the annual Trail of the Coeur d'Alenes meeting. Assuming that Ed and Nick can meet then, it looks like we should to request the court to defer the November 4 litigation plan deadline. Please let us know your thoughts on this. Thanks.
